

Securian Annuity Product Training Login Instructions

If you already have a user ID for Quest CE's global portal, you will be able to use the same user ID in the newly branded portal. If you don't have the new link available, you can still reach the Securian Financial branded portal through your global access.

If you are logging in for the first time to the new Securian Financial branded portal, use the initial password Welcome+123 (case sensitive) and you will be prompted on screen to set up your own secure password at that time for your new profile.
